

MAKE A DUCK WITH LEGO DUPLO

So what do you do when it's too wet for a trip to the pond? Grab seven DUPLO bricks and make the LEGO DUPLO DIY duck. As you build with your child(ren), reminisce about previous trips to the pond.

If your little one takes to this task like a duck to water, build four more duckies and sing songs like Five Little Ducks. It'll boost numeracy and musical skills!

There are many different breeds of ducks, so yours doesn't have to match the DUPLO one perfectly.
